

04-37 States:

In the Matter of Carrier Current Systems including Broadband over Power Line Systems amendment of Part 15 regarding new requirements and measurement guidelines for Access Broadband over Power Line Systems.

Here are my comments on BPL that I sent to the FCC. The proceeding that you use is 04-37.

I OPPOSE the use of BPL as a solution to achieve broadband access! I am not opposed to broadband services, in fact I tend to be early adopter of new technology. However, there are better ways to deliver broadband that do not pollute the radio spectrum as Broadband over Power Line (BPL) does. Other solutions include fiber-to-the-home, cable, DSL, and wireless broadband. I am supportive of broadband access for all Americans; however, I OPPOSE the use of BPL as a solution to achieving this goal. Let's do it right and not just do it!
